

Future Education Research Network

Exciting Summer Trainee Opportunity in Technical Development!

Are you a tech-savvy individual looking for hands-on experience in web development and database management? Join us at Future Education Research Network, Inc. as a Technical Trainee and help us enhance our online presence and back-end systems!

Position: Technical Trainee

Responsibilities:

- Assist in the development and maintenance of our website and online platform
- Help set up and manage databases to organize and store research data
- Collaborate with the team to identify and implement improvements to our back-end systems
- Provide technical support and troubleshooting for internal users

Requirements:

- Proficiency in web development languages and frameworks (e.g., HTML, CSS, JavaScript, React)
- Experience with database management systems (e.g., MySQL, MongoDB)
- Familiarity with back-end development concepts and tools (e.g., Node.js, Django)
- Strong problem-solving skills and attention to detail
- Ability to work independently and collaborate effectively with team members

Benefits:

- Gain valuable hands-on experience in web development and database management
- Work with a supportive and collaborative team
- Flexible hours and remote work options available

How to Apply:

Send your resume and portfolio (if applicable) to research@fern-us.org with the subject line "Technical Trainee Application". Please include a brief explanation of why you are interested in this position and how your skills align with the job requirements.

Don't miss this opportunity to showcase your technical skills and make a meaningful impact at Future Education Research Network, Inc.! Apply now and be part of our research and education initiatives!
